

Pharmaceutical Regulatory Affairs: Open Access

ISSN: 2167-7689

www.omicsonline.org

Pharmaceutical Regulatory Affairs: Open Access believes the new approach to regulation will eventually be adopted for all healthcare products as it represents the best model for delivering new healthcare advances to market in a reasonable time with acceptable safety.

Pharmaceutical Regulatory Affairs: Open Access is an international, peer-reviewed journal overlays the development of new pharmaceutical products by using biotechnology. Pharmaceutical Regulatory Affairs under Open Access Publication enclose manuscripts containing original research articles of authentic information and regarding research includes the latest advanced laws in regulatoryaffairs.

Pharmaceutical Regulatory Affairs: Open Access provide an interdisciplinary knowledge of pharmacy and law as applicable in the field of pharmaceutical regulation at National and International levels in drug licensing and control authorities, and export-import agencies dealing with the pharmaceuticals.

Pharmaceutical Regulatory Affairs - Open Access uses online manuscript submission, review and tracking systems for quality and quick review processing. Submit your manuscript at
